

 **Job Opening:** Installation Engineer

 **Location:** Baner, Pune, Maharashtra

 **Company:** ERA Hydro-Biotech Energy Pvt. Ltd.

What You'll Do:

- Plan and execute installation, commissioning, and handover of assigned projects at site.
- Track ordered vs delivered materials and ensure proper storage, safety, and security at site.
- Prepare and submit installation, commissioning, and invoice-related documentation for approval.
- Arrange and procure any additional materials required during installation.
- Report daily/weekly progress to client representatives and internal Project In-charge.
- Supervise and guide subcontractors to ensure timely and quality installation completion.
- Coordinate return of surplus/unused material to Head Office in consultation with Project team.
- Ensure compliance with site safety, health, and operational procedures always.
- Manage site logistics including travel, accommodation, and food during installation period.
- Perform all necessary site duties to ensure successful project completion and handover.
- Follow company policies, maintain work ethics, confidentiality, and uphold company image.

What You Need (Must-Haves):

- Degree/Diploma in Mechanical / Electrical Engineering.
 - Strong hands-on knowledge of installation of pumps, blowers, piping, electrical panels, and cabling.
 - Knowledge of Water & Wastewater Treatment plant installation, operation, and commissioning.
 - Ability to read and understand P&ID, site layout, and civil drawings.
 - Basic understanding of material management and site coordination.
 - Experience working with subcontractors and installation teams is preferred.
-

Skills & Behaviours

- Ability to select and coordinate subcontractor agencies.
 - Team leadership and supervision capability.
 - Strong problem-solving and issue-resolution approach.
 - Willingness to travel extensively and work at project sites across locations.
 - Adaptability to different site conditions and environments.
 - Good coordination and communication skills.
 - Safety-conscious and quality-focused mindset.
 - Professional attitude, discipline, and accountability.
